

**C.R.E.W. Inc.** is a progressive converting roll manufacturer providing the highest level of service and quality products available within the industry.

At **C.R.E.W. Inc.** our strength is designing, engineering, manufacturing and refurbishing custom rolls - including heat transfer rolls, for the web converting industry.

We also offer many standard dead shaft idler rolls and live shaft idler rolls for the film, foil, and printing converting industries.

Since 1999, our reputation has been built on our focused attention to understanding your unique needs, producing quality products, and meeting/exceeding delivery dates - one customer at a time. It is why our customers come back to us, time and time again - over 80% of our customers have been with us longer than 5 years.

Everyday we strive to give our customers an edge in the marketplace – whether it is designing a custom roll, refurbishing an existing roller or manufacturing a roll within a tight timeline.

If you don't see what you're looking for, or aren't sure what you need, email us - [sales@crewinc.net](mailto:sales@crewinc.net) or call

us -

**(920) 235-5501**

and with our years of experience we'll figure it out together!
